

Ability to Respond Creatively

Criteria	Capstone 4	Milestone 3	Milestone 2	Benchmark 1
Consider broader contexts in responding to opportunities.	Creates and assesses several ways to respond in/to the opportunity in a broader context.	Experiments with several ways to respond in/to the opportunity in a broader context.	Acknowledges that there are several ways to view an opportunity in a broader context.	Identifies an opportunity at a surface level, providing little insights and/or curiosity beyond basic facts.
Explore and create multidimensional approaches to respond to opportunities.	Creates and assesses a multidimensional response to an opportunity.	Experiments with several responses to the opportunity each reflecting a different dimensional lens.	Acknowledges that an opportunity has several dimensions.	Identifies only a one dimensional response to an opportunity giving little consideration to other aspects.
Explore connections with other aspect or opportunities.	Create and assesses impact of connections with and between other aspects or opportunities.	Experiments with connections among several aspects or opportunities.	Acknowledges several connections exist between aspects and opportunities.	Identifies a single connection to another aspect or opportunity.
Design Innovative Responses with broad application.	Create and assesses innovative responses in multiple contexts and in a new form.	Experiments with innovative responses in multiple applications.	Acknowledges innovative responses might be used multiple applications.	Identifies responses that are well established and conventional without considering additional applications.
